“ I met Carl at the Fire Co some 40+ years ago. He was a good man that gave to his community, worked hard and mentored the younger guys. As always many fond memories of that time. He had a very full life and contributed greatly to many peoples growth and lives through his leadership. It's sad that no one at the current LFC will be able know or remember those times. I know I was able to hear more than one story and meet some of the men that were there before me and that was a privilege!
