“ To the Troop Family:

I am so sorry to hear of Curtis's passing. I helped Curtis out for quite some time.

Actually, I am the gal that was going to work with him to publish his "book" some years back, until the note pads were stolen from his truck.... You may remember this time period.

Curtis was a hard man, but he had a heart of gold. I saw him do acts of kindness when you would least expect it of him. I guess that was what kept me coming around, the fact that he always meant well.

His obituary said it well, he was a hard man. YES, he was. Some of that hardness was difficult to take and there were times we had no contact. But we did have contact about a month before he passed. I couldn't help him for reasons of my own.

He often spoke of his fantastic Mac and Cheese, so we had him over for dinner a couple of times and he still thought his was better! I couldn't win!!

I teased him about how he babied his truck and constantly bought new stuff for "her". He would complain that I was trying to "change him". I replied "only his language!" "That's me", he would reply. Sometimes I felt like a maid when I would visit and I hated that, but Curtis really needed the help.

*I will miss the voice and the humor of Curtis. I regret that I just couldn't do enough for him ~ I will remain forever his friend, RIP

Hello Kathy , thanks for the kind words. Perhaps you will know who this is. Since you knew Curtis so well. Maybe he told you. If he didn't tell you. It's not surprising. Either he loved you or hated you. But if he loved you he could kill you without a second thought.
