“ I remember Danielle as X-ray student and her quirky smile when asked a question she didn't know the answer to. How ever she ended up being an outstanding Radiology Technologists and a credit to the profession

“ Dear Meade and Family,

*My heart is very heavy and so sorry to hear of Danielle's passing. I will never forget all the fun we had working together in the X-ray Department at the Osteopathic Hospital many years ago. I will hold onto all the good memories we have. We all stayed friends together moving forward meeting for breakfast, lunch and many dinners at Fran's house. There are not enough words I want to say. I will miss her so much. She was the most compassionate, kind, loving, giving special person I know. I will never forget you and you and your family will always be in my heart and prayers.*
