“ *She was my grandmother. She helped raise me mostly She did her best how she saw fit and she was great at it. She taught me things about the German way. She put me to catholic Bible study. She was the best grandmother there was and when her great grand kids came along. They were the light of her life. She really enjoyed them and haven't conversations with them made her laugh so much She will always be missed and never forgotten.*

“ To Pinky's family.... A sad time right now, but it does get better. Just remember that she lived a long life and enjoyed it. She was a wonderful woman, and I have never or will never forget her. I remember the times we spent together. Even in the short trips to the store, that lady could talk and make me laugh. People normally can't get a word in edgewise with me, but she did... L ol. I've been in Ohio for over 7 years, but never forget my family in Pa. And her, and her family were my family also. Maybe not by blood, but Always in my heart ❤️. Lots of love and hugs to the family.
