“ *Judy and Jay, I had the privilege of knowing your mother from working with her at Hartman Underhill and Brubaker. She was always kind and smiling and even after I left the firm, I thought of her often. So glad that I got to know her.*

“ Dar Jay and Judy,

I knew June from working at HUB. We would go to the movies together, go out for dinner, attend craft shows in the Fall, etc. June and I were friends for many years and I regret that when she left HUB, she cut off all ties to the people that cared about her at HUB. I tried for many months to re-establish a connection with June, but to no avail. I will miss her deeply.

Judy and Jay - Had I not been looking for a recent death of a friend, I would have completely missed knowing that June had passed away. I am not certain if you will still get these, but I just sat here and cried, wondering where her life took her after HUB. I was June's backup for many years when she was out of the office. I of all people, know how hard she worked, and I mean she worked very hard, never complained about going out in the weather for all 4 seasons, bundles of documents, mail, boxes, parcels, you name it, she did it. I missed her and lost contact when we both left HUB, but I never forgot about her, and even to this day, when I drive through Manheim, I would always think I wonder what she is up to. God Bless her soul, she has been resting all this time. I hope she had amazing retirement years and got to do all the things she had hoped to do. She was the fastest reader of books and I was always blown away that she would be done in one evening with her books.

RIP my dear co-worker. Blessings, Mindy Newlin (prev. Tstudy)
