Kathi always was my Big Sister. My earliest memories of her are loving and caring. She is one of the greatest blessings that I have had in my life. She will be sorely missed by those whose lives she touched but her Spirit lives on in us all.

Rest in Peace, my Dear. We will be together again soon enough!

A profound thanks to my cousin Buddy Dougherty and his family for standing by Kathern Lee over the last difficult year. Kathi expected no less of her brother -- and Buddy delivered.

Many thanks to Kathi's posse of long-time friends; Lancaster was home because you all were there. And, if roles had been reversed, she gladly would have attended to you all.

Special thanks to Michelle Dietrich, Kathi's Tarheel "cuz," herself a hospice nurse, who kept me updated on Kathi, especially recently.

I had my last phone call with Kathi about two weeks before she passed. It was like so many phone calls over the years with "blood on blood," family stories. When she began to tire I took the opportunity to tell her how much she had meant to me since we re-connected in 2005. Then, it was "Love you, bye!" for the last time.

"Mom Pat" is absent is from the formal obituary; she was Kathi's "second mom" as everyone knows. I was over to Mom Pat's house as a small child and wish that I had been around her as an adult -- she and Kathi were each other's guardian angel.
