*I am so sorry to hear this. I was a friend of Keith's back in the Brandon Park days. Many fond memories of Keith working on or washing the car, basketball games and just having laughs together. Keith was always there for you and you knew you had a true friend being with him. I've moved away but the times I did get to see him over the years it was like we were only a few days apart. Great guy and friend. I am sure he will be sorely missed. Rest in peace buddy*

“ I am deeply saddened to hear of Keith's passing. I worked at Integra a few years back & being one of the newbies, I'd often stop & ask Keith a question. He was so laid back & soft spoken. Always willing to help or explain how a certain piece of equipment worked. Many times I would see a pic on his computer screen of the front of a kayak, on beautiful waters. Finally I asked him about it. He was the one taking the picture of course, as he eased along some beautiful scenic vistas, taking it all in! We talked about our mutual love of the outdoors, nothing to do with hunting or harming, just respect & love for the wonder & peace of it all!

And then there was that ratty ole car in the parking lot 🙄 I'd wonder sometimes if he would make it all the way home without having to do a quick along side the road adjustment! But he loved working on that thing! Since I grew up with a dad & brother who always worked on cars, I could so relate to that as well about Keith. Those two things told me a lot about Keith & I liked him right away! Rest In Peace sweet man.
