“ *Sorry to hear about the passing of your father. I worked with Bob for several years at the York County Planning Commission. His office was across the hall from mine and we had many interesting conversations about work, family and life in general. He created the most interesting maps for his reports, all by hand - we did not have desktop computers at the time. We still share those reports with new planners! My daughter took dance lessons with Barbara and Bob would often show me some of his outdoor projects while I waited. He was very proud of his gardens and I still have some of the plants that he gave me growing in my yard. Bob had a contagious smile and was always happy. May your many special memories help your hearts to heal and may Bob rest in peace in the arms of the Lord.*
