“ Dear Sam's family, I've taken too long to write to you but I wanted to get it right. I am so so sorry about your losing Sam. I think of you all and her often. I worked with Sam in the mornings at Centerville. At first she didn't talk much because as she told me later, she wanted to make sure I was the right kind of weird. Sam was a wonderful staff, co-worker and friend - kind, understanding and supportive. Some mornings I only got out of bed and went to work because I knew her and her humor would be there to greet me. Word cannot express how I feel. Please take care of yourselves.

“ I just found out today, a staff that had worked for my department just passed recently. If you don't know this already, I am a director for a day program for adults with disabilities. The staff that work with each of these individuals don't do so for the money, but because they have a heart to help others in need. Samantha should be remembered as a true hero, who put others before herself and cared for those who needed extra support. She helped create so many special moments and memories for the individuals in our day program, and her acts of love and compassion will always be remembered. I am thankful that this world has people like this in it. We should all strive to take time to love and care for others at whatever capacity we can. Show God's love in this world. Samantha, thank you for all that you gave to our program. You were a true blessing to so many individuals! You will truly be missed by me and so many others! May God hold you in His loving arms!
