“ I often would drive home from work in the afternoon and between Lincoln Highway and Strasburg Pike, I saw he would sit in the front yard and wave at every passing car. I wanted so much to wave back, but had to keep my hand on the steering wheel and follow the speed of the traffic in front and behind me. Once in a while, I stuck up the "peace" sign from my window. I wanted so much to tell him that what he was doing meant so much to me, and how grateful I was that he was kind in an otherwise unfriendly environment. My condolences to his family, and gratitude for his kindness and reminder that God's love is not dead. I hope he's able to see all the seeds he planted, from Heaven.

“ I'm so sorry to hear this. Tony and his friend made people's days brighter every time they passed that corner. It became a thing, "Let's see if the guys are out waving today." I'm sure this brightened everybody's day, no matter their mood. Sleep in peace, Mr Thomas. We will continue your legacy down here while you start a new one with the beautiful angels surrounding you.

“ When I heard about Tony it was like losing a friend even though I never met him. Living right off Millport Road, I had the occasion to pass Tony alot and always looked forward to seeing him and waving...rolling down my window in all seasons just to give him an extra big wave. He made me smile. Such a simple gesture meant so much to so many. I didn't know Tony's name before but now I will never forget it. Prayers and comfort to Tony's family. I'll still be waving to you Tony!!

“ I started working in the city about a year ago and used to go straight at the light by Turkey Hill. After detours from roadwork, I made the left at the light to go around. I saw a man sitting outside waving to every single car that drove by. I thought what a wonderful, kind thing to do! I took that way everyday since then. While I never had the pleasure of meeting and talking with him, his waving and obvious cheerful outlook on life made my day each morning I drove by. To his family, my deepest sympathies. I will continue to wave as I drive by each morning. 🙌

“ Like many others, I have never personally spoken to this man but I can tell you he lit up my day every time he waved at me. I'd look for the two friends along the road that waved to us all along our hurried journeys and every time I saw them, I was reminded that there are good people out there. The smile on his face as he waved is one I won't forget. The world would be a much better place with more people like Tony. God Bless and my sincerest condolences. The people of Lancaster County will always remember you and miss you.

“ I never spoke a single word with this man, and never even knew his name until today, but here I am sitting in my car crying my eyes out. Very few people in this world have the ability to be able to communicate and share the ideals that this world truly needs, but Tony could do it without even using words. He was the embodiment of unity for a world desperately in need of it. Thank you for waving at me my friend.

“ I first met Tony when he would come in to visit his son at CV. He would walk down the sidewalk passing my office and wait until I looked out and then we would give each other a big wave. He was always pleasant. A couple of years later, I would see him again on Strasburg Pike! It was a pleasant way to end my commute from Mount Joy! Almost to my destination, he would put a smile on my face. The "little things" are sometimes the "big things." He made a difference to so many! My prayers continue to be with his family during this time of heartache. God bless each of you!
